

ESTHER ANDERSEN

Senior Operations, Customer Success & Governance Executive

Sandefjord, Norway · esther.andersen3@gmail.com · +47 46 62 50 69 · linkedin.com/in/esther-andersen-6737853

Executive Profile

Senior operations, Customer Success and governance leader with 20+ years across B2B SaaS, telecom and insurance. Six years at Director level with full P&L responsibility for multi-market Customer Success, Account Management and Portfolio Sales. Experienced leading through managers across nine countries, building the operating systems behind retention and expansion, and translating executive priorities into measurable programmes, dashboards and management routines. Currently Head of Operations at Fair Car Insurance, working in the executive leadership environment and reporting directly to the CEO on operations, customer experience, process maturity and business-critical priorities. Certified EU GDPR Data Protection Officer.

Subsidiary integration

CRM migration & HubSpot ownership

Data governance & GDPR

Selected Career Results

- Reduced customer churn by 5% at ABAX by redesigning customer-journey touchpoints and introducing earlier risk identification.
- Delivered ABAX's best-ever CSAT result, 6% above the industry benchmark, within the first year of the initiative.
- Led Customer Success, Account Management and Portfolio Sales across nine countries with full P&L responsibility for the existing-customer portfolio, including global customers, directly managing a team of 12.
- Led the CRM workstream in a full-company platform migration from 24SevenOffice to HubSpot — customer data, workflows and reporting — while other teams migrated finance, billing and related systems.
- Part of the team that led the end-to-end integration of a newly acquired subsidiary across operations, technology, finance and commercial stakeholders, with no customer service disruption.
- Standardised SLA, quality and performance governance across multiple Telenor delivery centres and external vendors, including a vendor supporting HR, IT and Finance functions.
- Led operations of up to 120 employees through four team leads in high-volume customer service environments.

Professional Experience

Head of Operations

Larvik, Norway · May 2024 – Present

Fair Car Insurance

Insurtech spinout of ABAX operating in Norway and Sweden.

- Work in the executive leadership environment, reporting directly to the CEO on operations, customer experience, process improvement and business-critical priorities.
- Part of the team that led the integration of a newly acquired subsidiary into the Fair ecosystem, coordinating operations, technology, finance and commercial stakeholders through the full customer and process transition.
- Led the CRM workstream in a full-company platform migration from 24SevenOffice to HubSpot — aligning customer data, workflows, lifecycle structures and reporting — delivered by a cross-functional team.
- Partnered across Product, Technology, Operations and Finance to establish KPI and OKR structures and leadership routines that surface operational risk and improvement opportunities earlier.
- Applied a GDPR-conscious approach to customer data, reporting and operational workflows.

Director, Customer Success, Account Management & Portfolio Sales

Larvik, Norway · June 2019 – May 2024

ABAX

B2B SaaS and telematics business serving customers across multiple countries.

- Led Customer Success, Account Management and Portfolio Sales through local managers across nine countries, directly managing a team of 12.
- Held full P&L and result ownership for the existing-customer portfolio, including international and global customers.
- Owned the full post-sale lifecycle, including retention, renewal, expansion, customer health and portfolio performance.
- Reduced churn by 5% by building structured customer journeys and earlier risk identification into the account model.
- Delivered the company's best-ever CSAT result, 6% above the industry benchmark, within the first year.
- Directed the build of customer segmentation, escalation workflows and health dashboards that shifted the organisation from reactive contact to proactive, data-informed account management.
- Established follow-up, upsell and renewal-risk routines and partnered closely with Sales on upgrade opportunities.
- Owned hiring, coaching, promotions and performance management for local Customer Success and Account Management leads.

Head of GSS Service Desk

Oslo Area, Norway · August 2015 – January 2019

Telenor

- Led a global, multi-tier service operation across several delivery centres and external vendors through local managers.
- Directly managed a vendor team supporting HR, IT and Finance functions across the Telenor organisation, in addition to service desk delivery.
- Owned SLAs, escalations, service quality and customer satisfaction; rebuilt a fragmented, locally run service desk into one shared operating model.
- Standardised processes, SLA reporting and quality governance across regions, teams and vendors, with consolidated reporting that surfaced bottlenecks earlier.

Service Delivery · Quality · Call Centre · Operations Manager

Norway and USA · 2001 – 2014

Teleperformance & PRC

- Progressed through increasingly senior operations and customer service leadership roles.
- Led organisations of up to 120 employees through four team leads.
- Built quality programmes, coaching structures and performance frameworks from the ground up in high-volume, metrics-driven environments.
